## Who We Are

Nishan Business Consultants helps small and medium businesses move from daily confusion to practical systems. NBC supports owners who need clearer operations, better technology, stronger documentation and a more professional growth path.

- Founded in 2017 with a focus on accessible business growth support.
- Works with retailers, food brands, service businesses, startups, coaching brands and SME owners.
- Combines business consulting with software, hardware, process and documentation support.

## Core Services

- Custom billing, inventory and order management software planning.
- POS hardware selection for billing counters, barcode, labels, KOT and printers.
- WhatsApp order automation and cloud kitchen workflow planning.
- Franchise readiness, investor presentation and launch support.
- Business documents, SOPs, proposals, policies and vendor documents.
- Team training for owner, staff and franchise operations.

## Why Clients Work With NBC

- Practical language instead of technical confusion.
- Solutions designed for real small business floors and counters.
- Step-by-step planning so owners can start small and improve over time.
- Support across technology, people, process and documentation.
